↝ Key Skills

ReactJS	Intermediate	2 years	Currently the main framework I use for my works.
JavaScript	Intermediate	2 years	Flow, TypeScript, NPM.
React Native	Skilled	1 year	I used Expo, then RN. I got familiar with Java and Objective-C while maintaining native modules.
Standard practices		3 years	Good working knowledge of standard tools and practices such as git, some bash and zsh, Vim, CLI tools, NGINX.

↝ Work Experience

July 2019–Present: kumparan

React Native   ReactJS   GraphQL
JavaScript   Lerna

Working on kumparan's desktop and mobile web, iOS and Android application and the in-house CMS.
I work remotely most of the time. Time management, transparency and team's goal over individual pride are the keys to achieve good results.

Mar 2018–June 2019: Vospay.id

Expo   React Native Web   Redux-Saga
JavaScript   TypeScript

My first project was to create the landing page. My main task was to maintain the dashboard and CMS. This involved discussing new features and designs. Later, I took initiative and translated the web to be the application version for iOS and Android with Expo.

Oct 2016–Mar 2018: Touchten

I test games manually or with automation as a part of Quality Assurance team, it means the game or update builds will not be published until we give the green light. I check the performance, fun factor, and framework reliability.

2014: X-Graphic

Adobe Illustrator   Adobe Photoshop
Sketch   Corel Draw

Worked as Design Intern on the last semester of my high school. I interacted directly with customers, translating their abstract ideas to ready-to-print materials. I also prepared customers' printing materials, often PDF to be printed with digital printing machine.

↝ Other Experience

- Active engagement on various online tech related platforms, such as GitHub, Hacker News, Capiche, various Discourse instances.
- Participated on various Catholic Church activities. I was the representation from my parish to attend *Indonesian Youth Day 2016*. I volunteered for committee of *Asian Youth Day 2017*.
- Contributed to few open source projects with bugfixes or typos on Readme file.
